DOTS & LINES

Take turns with a friend by drawing a horizontal (side-to-side) or vertical (up & down) line between 2 dots. When you draw the fourth side to make a box, write your initial in the box. Keep going until no more lines can be drawn, and then the count initials to see who has the most!

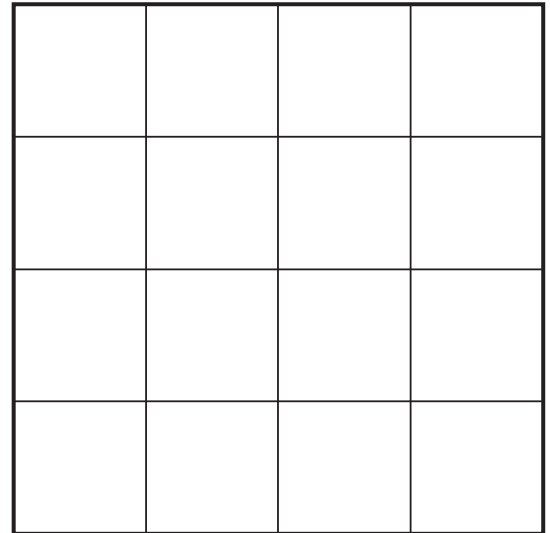

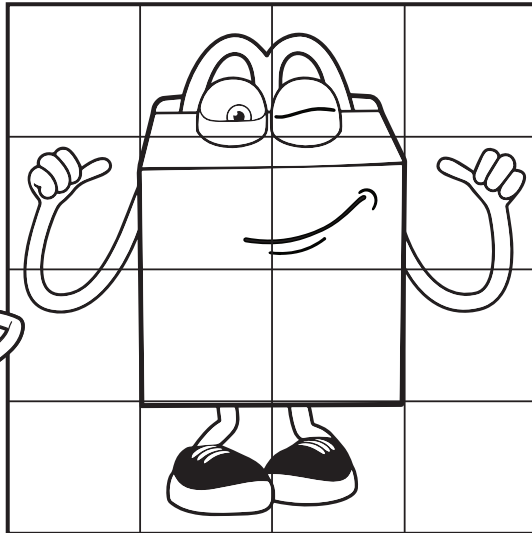

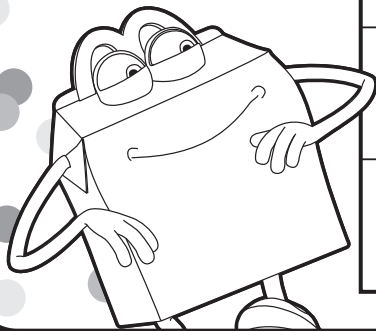

BONUS: If you capture an apple, it's worth 5 bonus points!

DRAW HAPPY

Use the grid to help you draw Happy. You can use a grid like this to help you draw just about anything!
